PRICE THREE CENTS

RAILROAD BILL AND LORIMER

TERMS FOR SPEECH BY COL. ROOSEVELT.

President's Campaign Tour of Central States Came to an End at Detroit—Greeted by Crowds Wherever His Train Stopped.

Detroit, Mich., March 30.—The issue between Theodore Roosevelt and the present national administration was emphasized by a speech which the former president delivered here to night. The railroad rate bill passed by the present congress and the Lorimer case furnished the themes for his speech.

With his visit to Detroit, which he reached after an all night ride from the west, Col. Roosevelt's campaign tour of the central states virtually came to an end, as he expects to make no stops on the return trip to New York. Col. Roosevelt said that the railroad rate bill, as submitted to congress by the administration was "a thoroughly mischievous measure."

The progressive senators, he said, reconstructed the bill "against the violent opposition of the reactionary who supported the administration," retaining as the one essential feature of the original bill the provision for a commerce court. This court, he said, has worked badly. "It has tended," he said, "to a large degree to nullify the expert decisions of the interstate commerce commission. It represents retrogression in that respect. But the rest of the bill for which the progressive senators alone are entitled to the credit, has represented a real and great improvement."

The Lorimer case, Col. Roosevelt said:

"I wish to call your attention to the last instance of the working in actual practice of the president's theory of government of the people by what he calls a representative part of the people. Remember that Abraham Lincoln's statement was that we needed a government of the people, for the people, by the people, and that the proposed improvement is to have it a government by a representative part of the people. In practice as I have already said this has always meant government by a thoroughly unrepresentative part of the people against the interest of the whole people. It meant and can only mean government of the people for the special interests, by the bosses."

"The immediate illustration of this fact is afforded by what the senate committee has done in the Lorimer case. The reactionary members of both parties, or the committee have stood by Mr. Lorimer and against the protest of the majority, have recommended that he be allowed to continue in his place."

"Do you think that the representatives who have acted in this way really represent the people? I don't. Do you think that this specimen of government of the people by a representative part of the people so-called—that is, really by a misrepresentative part of the people—represents any means and government by the people? I don't. For instance, one of the gentlemen who signed this report on behalf of Mr. Lorimer was Senator Dillingham of Vermont. I do not for one moment believe that if the people of Vermont could vote on this issue that they would vote to retain Mr. Lorimer in the senate. I do not for one moment believe that the people of Washington and South Dakota would have voted for Mr. Lorimer and yet their senators, Messrs. Gamble and Jones did. It seems to me that this Lorimer case so far being an argument in favor of the president's position that we should have government of the people by a part of the people, is a strong argument for more direct government by the people, a strong argument for more direct government by the people, a strong argument for the direct election of United States senators by the people."

"Discussing what he said has been termed 'the impulsive judgment of the people,' Mr. Roosevelt defended his proposition for 'giving the people the right by a reasonably quick method of constitution or amendment of the constitution, or say what they meant when they made the constitution.'"

"He said there would be at least two years before a vote by the people could be taken and if that is not sufficient to turn impulse into sober judgment then the people are wholly unfit to govern themselves at all. But," declared Col. Roosevelt, "in my opinion I would a great deal rather trust the impulsive judgment of the people in a case like the Lorimer case than the deliberate judgment of the so-called representative part of the people which has been going on for the last two years. If the deliberate judgment of the representative part of the people over a period of two years results in the retention of the Lorimer case, then I infinitely prefer the impulsive judgment of the people themselves."

On his way from Chicago to Detroit, Col. Roosevelt was greeted by crowds at every station, and he made short speeches from the rear platform of his train at Michigan City, Ind., and Dowagiac, Lawton, Okla., and Kansas City, Mo. Col. Roosevelt addressed large crowds.

Mr. George Foster of Chicago is expected to arrive in the city today to visit with her father, Josquin Vascor of North Diamond street.

INDICTMENTS FOR MURDER

EXPECTED IN ROCK ISLAND TRIOT CASE.

Three Men, It is Said Will Be Held Responsible for Clash—Evidence Shows Fatal Shots Were Fired by Members of Mob.

Rock Island, March 30.—Indictments, charging murder, as a result of the riot last Tuesday, are expected to be returned by the grand jury here Monday afternoon. Three men at least, it is said, will be held responsible for the clash between the mob and the police, which resulted in the killing of two men.

Evidence thus far obtained shows the fatal shots were fired by members of the mob. Both the coroner's jury and the grand jury were in session today. Troops guarded the court house, in which the investigation met. As soon as a witness finished his testimony before the grand jury to repeat his narrative. The public was admitted to the hearing of the coroner's jury Friday, but to day all but jurors and witnesses were barred. A handbill containing an attack on Mayor H. M. Schriver and Sheriff O. L. Bruner, written by Harry M. McCaskrin, a candidate for state's attorney, who delivered a speech here preceding the riot, was distributed on the streets today. The docket declared responsibility for the trouble belonged on their shoulders. No attempt was made to prevent the distribution of the bills. The streets were crowded with shoppers to night, but there was no disturbance. Seven local ministers will speak on the riot tomorrow and admonish their congregations to uphold law and order.

At a conference to day between Adjutant General Dickson of the Illinois National Guard, Mayor Schriver and Sheriff Bruner, it was decided to recommend to Governor Deneen the withdrawal next Monday of 300 of the troops now stationed here. Three hundred probably will remain until after the primaries April 9.

Practice Games

Spring Series Began at Philadelphia and St. Louis—Other Games Played.

Philadelphia, March 30.—The Philadelphia National league team defeated the World's Champion Athletics of the National grounds here today in the first of the spring series of nine games. The score was 13 to 9. The Nationals got many of their runs through the wildness of Houck, a new pitcher of the American team. Alexander for the Nationals, was effective until the fourth inning, when the champions began to bat him hard.

St. Louis, March 30.—The Nationals won the first game of the spring series of the local major league teams by defeating the Americans here today 6 to 4. With the score tied when the Nationals went to bat in the sixth inning, two errors on the part of their opponents, and a base on balls, a single and a double netted three runs.

Indianapolis, March 30.—Brooklyn National league defeated the Indianapolis Association team in the first practice game of the season here today 9 to 2. Brooklyn got a lead of three runs in the first inning and the locals were unable to stop them.

Cuba-Louisville. Louisville, Ky., March 30.—The Louisville club of the American association here today 11 to 5. Cole pitched the entire game for the visitors and allowed nine hits.

Yale Won Game. New Haven, Conn., March 30.—Yale won its first game of the 1912 baseball season by defeating Trinity here today 7 to 2.

AN IMPORTANT ARREST.

Police Capture Alleged Ringleader of Safe Blowers.

Chicago, March 30.—In the arrest of E. F. Jordan, said to be an escaped convict with numerous aliases, the police believe they have captured the ringleader of a band of safe blowers who have baffled the cleverest officers here during the last six months. More than thirty robberies have been committed during that period.

Jordan has been living in one of the most fashionable residence quarters in Chicago. When arrested he carried two large revolvers. In the seams of his trousers saws were concealed.

A warehouse receipt led to the discovery of a suit case containing more than thirty sticks of dynamite in storage on the north side. Tools for drilling and blowing safes were found in his room. Police assert Jordan escaped from the state prison at Columbus Oct. 3, 1909. He was serving a sentence for burglary in St. Paul. He is also said to have escaped from the reformatory at Jackson, Mich., thirteen years ago, after being sentenced from Detroit. His home is in Cleveland.

CUMMINS' DELEGATES. Des Moines, Iowa, March 30.—Six Republican county conventions in Iowa to day selected 36 delegates to the state convention for Senator Albert B. Cummins. Four counties chose Taft delegates, the president's delegates.

PRESIDENT TAFT IN PHILADELPHIA

TALKS TO MEMBERS OF CHAMBER OF COMMERCE.

Proved to Be in an Optimistic Frame of Mind—Thinks People Are on Eve of Better Times and Things Are Growing Better.

Philadelphia, March 30.—President Taft was in an optimistic frame of mind to night when he faced several hundred members of the Philadelphia Chamber of Commerce in the bourse here. He told them he believed the people were on the eve of better times; that things were growing better and that he believed there would be no great coal strike.

He said he had no jurisdiction in acting as a strikebreaker, and that the law was enough to wait and see if you were welcome to go "butting in" to matter between parties who know their rights.

The president said he was not a reactionary, but was a progressive, that he was not a pessimist, but an optimist.

"There is no office," the president said, "that the government performs more important for the individual in the community than the aiding of business prosperity and the removal from the business progress of those obstacles that interfere with prosperity. It is when there is lots of business doing, it is when everybody has a job, it is when the wheels of industry are humming so loud that you cannot hear caw, that the poor and the wage earner are the happiest. It is when he is making good wages and constant wages that everybody in the community is more nearly happy than at any other time. While I do not deprecate in anyway the movement for real reform and progress, provided it is sane and is not affected with fads and a disposition to disturb those things that have been useful to us for 100 years, I am nevertheless conscious that there is no duty so heavy upon the government at Washington as that of seeing to it that it interferes as little as possible with the business of the country and insulates the inspiration of confidence in those whose confidence is necessary to make business go and bring about prosperity."

"A man favor of the enforcement of the law, but I believe that the law and business can be squared in such a way so that those who violate the law may be an absence of persecution and no disposition to run amuck just for the purpose of showing that the government at Washington realizes that it has a job and is trying to make people think it has."

The American people are the most conservative people in the world that while it does not seem from the headlines of the newspapers as if they wish to discount everything in the future and have all progress ready the next morning for breakfast, on the whole, when you get down to the stratum of solid thinking Americans, there are no people in the world that are so conservative that recognize a good thing with the certainty that they do, and are bound to adhere to that good thing.

As long as it serves them well, they can talk about present government defects. We know defects better than anyone else and we are willing to point them out; but we also know as we look about the world that for 125 years we have had the best government ever created. That is not going to make us reactionary and sit back with a smug satisfaction that shall reject any movement for progress. It is the movement toward progress. It is on the other hand, does keep up sane, and it does keep us in a condition of mind where we know that there is no royal road to improvement. I don't mean to say that there may not be some machine that is better adapted for the purpose than we have, but what I do mean to say is that gently speaking no new machinery is going to work to make a great progress that we might not accomplish under existing machinery if the individual only grows better and better, and that it does not help matters to transfer from one machine to another when the same defects are going to interfere with the second machinery that now appears in the first. And you are not going to improve your community by assuming with respect to the new method that it is going to work better when that new method is going to require three times as much popular attention to government as you give to day."

THE "MINK" LEAGUE. Auburn, Neb., March 30.—At to day's meeting of the "Mink League" Warren Cummings of Auburn was elected president and secretary. The Shonandoah, Iowa, franchise was transferred to Hiawatha, Kans., and the Clarinda, Iowa, franchise to Beatrice, Neb. A schedule committee was appointed and the salary limit raised to \$900. The season will begin May 9, and end Sept. 2.

PORTRAIT OF TAFT. Washington, March 30.—A life sized portrait of President Taft, just finished, will hang in The Hague Peace palace. It is the work of Theodore Mollenboer of Amsterdam, and was suggested by Queen Wilhelmina of Holland.

SENATOR TAYLOR'S CONDITION. Washington, March 30.—United States Senator Robert L. Taylor of Tennessee, critically ill after a successful operation of gall stones at a hospital here, was resting easily to night.

PRESIDENTIAL PRIMARY ACT

NEW LAW NOW IN EFFECT IN ILLINOIS.

Bill Passed by House Saturday Afternoon and Immediately Approved by Governor—Taft Petition Was First One Filed.

Springfield, Ill., March 30.—Illinois now has a preferential presidential primary act in effect. At 3:25 o'clock this afternoon Governor Deneen, on a bed of sickness in the executive mansion, attached his approval to the emergency measure, which passed the house this morning.

Seventy minutes later a Taft presidential primary petition was filed in the office of Secretary of State Rose. By their promptness, local supporters of the president obtain for him the advantage of first place on the separate ballot which will determine the people's choice for the presidency. The petition bears 1,629 names.

Friends of Col. Roosevelt were busy circulating petitions in the afternoon, but these will not be filed before Monday.

So far no LaFollette petitions have made their appearance here, but a re expected to be forthcoming from Chicago.

One hundred and ten assemblymen—eight more than needed—voted for the bill on its passage. No votes were cast against it, although Representative Kleemann, attempted to get action on the Chipperfield house bill instead of the senate bill, which would have delayed proceedings until too late for the April 9, primaries.

Chipperfield appealed to the members to sidetrack his bill in favor of the senate measure.

Under the provisions of the new act, the vote of each congressional district is advisory to the national convention delegates from that district and the vote of the state at large is advisory to the delegates at large. Petitions for candidates must bear not less than fifteen hundred names and must be filed with the secretary of state not later than next Wednesday. The secretary is required to certify the presidential candidates to county clerks and election commissioners of the state on the following day.

Local election authorities must make return of the presidential state within two days after the vote is canvassed and the secretary of state must publish the vote by congressional districts, together with the total vote in the state, within the next five days.

The passage of the preferential primary bill wound up the business of the special session until after the primaries. When the senate met in a preliminary session this afternoon preference vote to the secretary of the members concurred in the house's "joint" resolution taking a recess until Tuesday, April 23.

HUNT FOR OUTLAWS

Detectives Close on Trail of Leader of Allen Gang and His Nephew.

Hillsville, Va., March 30.—With detectives close on the trail of Sidna Allen, ring leader of the Allen clan, and his nephew, Wesley Edwards, known hereabout as a dangerous man, prospects tonight were that before daybreak the two outlaws would be captured, and the entire band would be broken up. The Carroll county court house, killing five and wounding two others, would be in the hands of the law.

Early to day a posse under Detective Thomas Felt got a definite clew of the remaining outlaws' whereabouts. This was discovered in a cave near Floyd Allen's home. There was evidence that the place had been occupied by the outlaws before the posse arrived. It is believed that the fugitives learned of the approach of the officers and fled further into the mountains. Every line of escape has been closed, but up to dark no news of the result of the posse's move had been received here.

REMOVED TO HOME.

Chicago, March 30.—Mayor Carter H. Harrison, who underwent an operation at a local hospital recently, was removed to his home to day.

SATURDAY IN CONGRESS.

READY TO QUIT WORK TODAY

NEARLY HALF MILLION MINERS WILL BE IDLE.

Step Being Taken by Operators and Mine Officials to Make Brief as Possible the Stoppage of Coal Production.

Cleveland, O., March 30.—While 400,000 anthracite and bituminous miners prepared to quit work tomorrow at midnight, when their present wage agreements expire, the operators and union officials today took steps to make as brief as possible the stoppage of coal production.

The 170,000 anthracite miners in Pennsylvania will stop for an indefinite period, but arrangements were completed today for a re-opening of negotiations to settle their wage dispute. The operators' and miners' conference will be held in Philadelphia April 10. A month's suspension in the anthracite mines was thought probable.

The bituminous miners, after an eleven days' conference with the operators here, have secured an agreement which will give them a slight increase in pay. As their agreement, however, must still be ratified by the union's policy committee and then by a referendum vote of the union, the bituminous wage agreement will begin, pending the result of the final vote.

Reports to the heads of the United Mine Workers of America indicated the bituminous wage agreement would be accepted general.

It was stated that the suspension in all the mines involved would cause a loss in coal production to the country of 1,000,000 tons a month, at the present price of \$1,000,000 every day they remain out.

The advance in pay to the bituminous miners secured by their new contract will amount to more than \$15,000,000 a year increase over their present pay.

The bituminous conference adjourned after the new scale was signed. The scale gives the men an increase of five cents a ton for the mining of lump coal and a proportionate increase for all other kinds of labor.

How long the men are to remain out and under what conditions the referendum vote is to be taken, are details left to be decided by the union's policy committee.

The demand of the men for a five hour day on Saturdays was rejected and the settlement of local difficulties was referred to the local unions.

The wage agreement in the central competitive field which was fixed today is the basis upon which agreements are fixed for the other states.

In Anthracite Regions. Philadelphia, March 30.—That the suspension of mining in the anthracite coal regions will not last more than a month, if that long, was the expressed belief of coal operators in hard coal fields today when they learned that the representatives of the miners and the committee of operators will meet in Philadelphia, April 10, to resume negotiations for a settlement of differences. Reports from various sections of the mining regions show the mine workers expect that they will be given an increase in wages, probably about 10 per cent, and that they will have to work from some of their demands. The news that another conference is to be held created good feeling among the men.

The initiative for the re-opening of negotiations was taken by the anthracite miners in a telegram to George F. Baer, president of the leading company and chairman of the operators' committee. Mr. Baer replied that the operators were still going to meet the men, and the date quickly followed.

The last telegram in the exchange of communications was received by President Baer late today and was to the effect that April 10 was a satisfactory date for the holding of the joint conference.

The production of anthracite coal today was far below normal because many of the mines worked short-handed. This was due to the fact that the miners who had run out of powder and oil did not get new supplies, in view of the suspension, and did not enter the mines. Hundreds of other miners quit early and do not expect to report on Tuesday morning. Monday is a general holiday throughout the anthracite regions as the miners always observe the anniversary of the granting of the eight-hour day to the soft coal men, although the anthracite men work nine hours. Mine workers expect a complete shut-out on Tuesday.

GIVEN PRISON SENTENCE.

Chicago, March 30.—The silence of Miss Hazel Hogan, which she maintained several weeks ago, even after being placed in the county jail when court attaches sought to compel her to testify against Dr. Irvine Slesinger, accused of robbing her of \$1,700, has come to naught. Today Dr. Slesinger, who, despite the silence of Miss Hogan was found guilty and was sentenced to from one to fourteen years in prison. James Hogan, the woman's brother, and Curtin H. Young, received similar sentences on the same charge.

NOT A DEPOSIT.

Peoria, Ill., March 30.—The postal stryke bank which has been opened at Minier, Ill., since March 1, has the unusual record of not a single deposit in the first thirty days which it has been open for business.

MANIAC TRIED TO KILL GORE

BLIND SENATOR HAD NARROW ESCAPE FROM DEATH.

Attacked by Crazy Pole While Making a Speech at Waukegan, Mich.—Ignorant of His Danger Until Man Was Being Overpowered.

Waukegan, Mich., March 30.—Senator Gore of Oklahoma narrowly escaped death this afternoon when a crazed Pole, Charles Schomuk, attacked him with a club while the senator was speaking. The Pole was sitting near the stage and in the midst of the senator's speech suddenly leaped to the platform, drawing a club from under his overcoat as he jumped and swung instantly at the senator's head.

One of the men on the stage, Judge Judge C. P. Harman, was quicker than the maniac, however, and knocked Schomuk off the stage before his blow landed. The blind senator was ignorant of his danger until the man was being overpowered by the audience.

Senator Gore had arrived here this afternoon for one of a half dozen speeches he was making in a hurricane wind-up of the campaign for Governor Wilson. Judge Harman had introduced him to the audience and had taken his seat back on the stage while Senator Gore was proceeding with his address. The speech was nearly half ended when without warning the man rose, suddenly jumped to the platform, taking the club from under his coat where he had hidden it. He was shouting incoherently that he was a leech, and the audience for the moment panicked-stricken as the maniac marched toward Senator Gore, who did not realize the interruption. Standing in front of the senator the man raised the club to strike and as he did so, Judge Harman and a half dozen others rushed toward Schomuk. Harman reached him first and floored him with a blow to the chin.

Jury Fails to Find Verdict in Case of Sugar Men on Trial.

New York, March 30.—The jury in the case of John E. Parsons, Washington, B. Thomas, George H. Frazier and Arthur Donner, charged with violating the criminal clause of the Sherman anti-trust law while director of the American Sugar Refining company, reported a disagreement in the United States district court a short while before 1:30 o'clock this (Sunday) morning. The defendants were charged with conspiracy in restraint of trade in closing the Pennsylvania Sugar Refining company's plant.

Taft Endorsed. Columbus, Ohio, March 30.—President Taft was endorsed as a candidate by the Republican state central committee here to day. The committee also decided that the six delegates at large to the national convention at Chicago will be selected at the state convention to be held here June 5 and 6.

The committee defeated a plan to give Col. Roosevelt a complimentary resolution. Ohio's 42 delegates to the national convention will be chosen by a direct primary it was decided. The delegates at large will be chosen at the district conventions.

The victory accorded to the Roosevelt supporters was in the adoption of the direct primary plan for the selection of the 42 district delegates.

PARENT-TEACHERS' ASSOCIATION.

The educational committee of the Woman's club and the presidents of the four Parents-Teachers' associations of the city met last Thursday at the library for the purpose of perfecting the plans for the organization of the Union Parents-Teachers' association. This will include the members of the four existing associations and the parents and teachers of the 8th grade and high school. Any teacher, parent or other person living in Jacksonville and interested in the child's welfare will be eligible to membership. It is hoped to have a large attendance at the first meeting which will be held April 11 at high school, with State Sup't. F. G. Blair as speaker. Further notice of the meeting will appear later.

VESTER SERVICE AT STATE STREET.

The vester services at State Street church are growing in interest. Although the anthracite men work nine hours, the pastor, Rev. H. D. French, the pastor, will speak on "Christ and a Penitent Sinner." Miss Elizabeth Oldfield of the Illinois College Conservatory will sing. Everybody is invited to this service.

SPRINGFIELD MAN MARRIED.

ALL RIVERS NOW AT FLOOD TIDE

MELTING SNOW MAKES RAGING TORRENTS OF STREAMS.

Houses Wrecked, Lands Inundated and Lives Endangered—Mississippi Cities Said to Be in Greatest Danger.

Chicago, March 30.—Rapidly melting snow is making a raging torrent of every river and stream in the upper half of the Mississippi valley, wrecking bridges, inundating lands and threatening lives.

No doubt the weather gradually will become milder, which will result in a rising tide. All of the larger rivers are now in flood or within a few days will be. The flows constantly are rising and bridges, in many places, dynamite is being used, but the moving currents, it is feared, will carry away the huge gorges before they can be broken up into pieces small enough to render them harmless.

Mississippi river cities are said to be in the gravest danger. At St. Louis last night the river stood close to the danger mark, 30 feet, and was reported rising rapidly. Great fear is entertained for residents near the confluence of the Ohio and the Mississippi rivers. Gangs of men are working night and day repairing the damaged levees.

In the north, the Platte and the Des Moines rivers are causing much damage. The Platte is filled with ice gorges which have washed away several bridges. The Des Moines river still is below a flood stage, but is rising.

High water drove families from their homes in Rock Island, Ill., Waterloo, Neb., and Waterloo, Iowa. Yankton, S. D., Norfolk, Neb., and Schneider, Ind., yesterday. Near Schneider a dike in the Kankakee river broke, releasing 15 feet of water. Boats are being used in the principal streets of Norfolk, Neb.

Many other cities are threatened to be flooded within a few hours. Warnings have been issued to all residents of lowlands to prepare to move.

MADE PLEA FOR LEWIS

Attorney For Man on Trial For Using Mails to Defraud Reviewed His Life Work.

St. Louis, March 30.—E. G. Lewis, the "Great City" defrauder on trial in the United States district court on charges of using the mails to defraud, fought back tears today when his attorney in the opening statement for the defense reviewed Lewis' life work. The attorney began with the statement that Lewis, as "almost a boy," had built up a large enterprise of his own exertions and when his future seemed so bright, his entire property was swept away by the loss of the Lewis' publications.

Later in his argument the attorney contended that Lewis' intent was the main issue in the trial. Whether Lewis was right or wrong, the defense attorney said, it would be shown that testimony as to the action of the postoffice department was relevant insofar as its effect on "Lewis' business was concerned."

He cited the withdrawal of the second class mailing privilege from the Lewis' publications.

Judge Charles Amidon ruled that the defense could not mention the postoffice department's fraud order in evidence or argument. But one witness, a real estate expert, testified at the one session of court today.

TWENTY ROUND BATTLE.

Los Angeles, March 30.—Frank Mantel of Sacramento, defeated Jack Herrick in their 20 round battle at Vernon this afternoon. The fight went to the limit, Mantel being given the decision. The winner is to be matched against Frank Klaus for the middle weight title.

SENT TO PRISON.

Charles City, Ia., March 30.—Glenn Gulliver of Osage was convicted of the attempted robbery of the Orchard bank, by a jury this afternoon and was sentenced to five years in the penitentiary and to pay a fine of \$1,000.

TRAIN WRECKED.

Mason City, Iowa, March 30.—Six coaches of a Rock Island train were wrecked near Konsett, Iowa, to day. Many passengers were bruised. A broken rail was the cause.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, March 30.—For Illinois unsettled Sunday, probably followed by showers and colder by night; Monday cloudy in north, rain and colder south portion.

SOCIAL EVENTS.

Mrs. James T. King entertained a company of forty Saturday afternoon at euchre, at her home, 1047 West State street, with Miss Mary Masters as the guest of honor. The prizes were won by Mrs. Charles G. Rutledge and Mrs. William H. Stull. The prize for Miss Masters was a dainty sewing bag, which contained all sorts of things which will be useful for the prospective journey to Panama and along with it was a poem, which was read by Mrs. P. C. Thompson and was written. It is said by the hostess, although the verses were unclaimed. The reading of this poetry added a special feature to an occasion already enjoyable. Here are the lines.

THE PLEA OF THE BAG.

(Dedicated to Miss Masters)

Pray do not think me
A pink and white rag,
Glance at me again—
I'm a most useful bag.

But here all my days—
O let me not stay;
I so long to travel
In lands far away.

Some city I must see,
But which can it be?
All kinds and conditions
They the same are—to me.

But one does seem dearer
(If a happy young bride),
Will list to my cry
To hang at her side.

It starts from a circle
With streets up and down,
And Doctors all over
In this funny old town.

And this thought our Mary,
With a most charming way
She courted one Doctor
And brought him to bay.

Then it wondered if Mary
Might not take me too,
If I could be helpful
And teach her to sew.

So I've filled all my pockets
To sew on their buttons
And patch up his head.

Some darning for silk,
Some darning for lisle,
To mend up his stockings—
At least, for a while.

See! Both bodkin and thread,
And the needles and pins,
A stiletto to pierce with—
The way love begins.

Then some soap and an emory,
Yes they're not forgot
In all this collection
(I've brought me a lot).

And the scissors to cut
Pink and white, ribbon strings
Which Mary will run through
So many nice things.

Now, the thimble must be mentioned
For its a useful thing,
And must ever be in attendance,
If you sew with thread or string.

And the hooks and the eyes
To hold you together,
While the fishes you feed
In the worst stormy weather.

And a NewComb I've brought you
To comb out his hair,
When you've teased and caressed him
Yes, you'll need it right there.

And a dear little dolly
Full of safety pins new,
To pin up your skirts
And to save stitches, too.

And a dear little hank-shee
With tatting around,
For the thinnest of pockets
That ever was found.

And D. M. C. Cottons
I did not forget
For monogrammed shirts
Doc calls "his best bet."

Some black ones, some green ones,
Blue, yellow and red,
He bought in Chicago
(So Mary has said).

On monogrammed shirts
There are buttons to sew—
For he's quite a dodo
We very well know.

With all of these dainties,
So pretty and nice,
I come to you, Mary,
Please look at me twice.

If you take me and use me
Well—and diligently—too,
Then bright—Ray's of sunshine
Will come home to you.

Then Doc won't be cross
And wish you'd said, "No."
Or, yes, to the boys—
Left all in a row.

Poor Pat, By and Marcy,
Red, Earl and the rest—
They all tried to get you—
They all did their best.

But, for a busy young Doctor
You turned them all down—
Who came to our city
From the old haughty town.

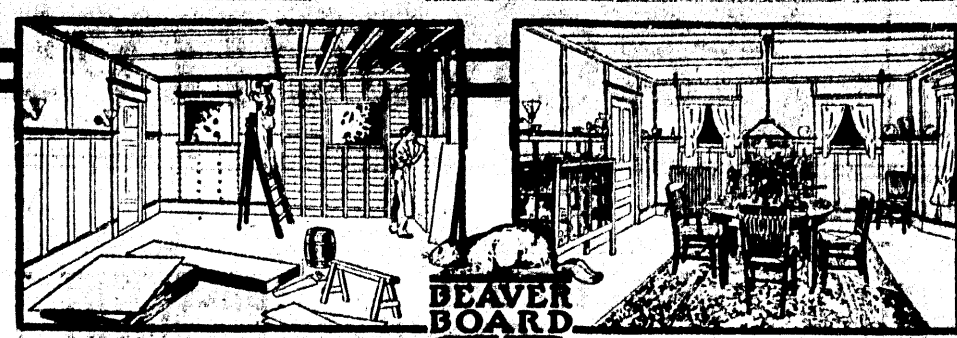

And now, my dear Mary,
In packing your grry,
Do not overlook me,
Take me on your trip.

And if you do take me
I'll do what I can
To make life a dream
As we sail down to Pan.

All my life I have tried
To keep up the pitch,
And now, what I wish
Is to see the big ditch.

Then you and your sweet-heart
With me in your hand,
On Panama's beach
Together will land.

This shows a new room with the BEAVER BOARD being nailed to the studs. The work is easily and rapidly done, without the labor and confusion of lath and plaster.

This shows how the room looks when finished. It suggests but one of very many artistic schemes of design and decoration possible with BEAVER BOARD walls and ceilings.

Use BEAVER BOARD for the Walls and Ceilings of Your New or Remodeled Building

It costs less than lath and plaster, lumber, or metal; is more quickly and easily put up; is durable, sanitary and artistic.

It will not crack, chip or deteriorate with age; it deadens sound, keeps out heat and cold, retards fire, and resists strain or vibration.

Made entirely of selected woods, reduced to fibrous form and pressed into panels of uniform thickness, with handsome pebbled surface. Made in convenient sizes for every purpose. Small quantities furnished for making many decorative and useful household articles. Full instructions for application. Apply to

CRAWFORD LUMBER COMPANY

Home" to be given Monday evening, have issued invitations for an "At April 8, at the Illinois Woman's college.

About seventy members of the Westminster Presbyterian Sunday school spent several very pleasant hours Friday evening in the parlors of the church, when the young ladies of Mrs. Gunn's class were the guests of honor at a supper furnished by the Men's Bible class, of which W. J. Brady is the teacher. The banquet was the outcome of a contest between the two classes, in which the young ladies won out. The company included also the members of Mrs. Smith's class, Mrs. Robert Stevenson's class and William McCormick's class, as well as all teachers in the Sunday school. After all had partaken of the excellent supper, which was prepared by the ladies of the church, W. J. Brady called upon Rev. L. H. Davis, the pastor, J. H. Rayhill, Jr., the superintendent, and a number of others for remarks. Miss Jensen played several excellent violin numbers and Mr. Brady recited a few humorous selections, which were much enjoyed. After the banquet an hour was spent in the singing of Sunday school songs and in a social way.

Mrs. James T. King entertained a company of forty at euchre Saturday afternoon at her home, 1047 West State street, in honor of Miss Mary Masters.

KNOX, world renowned hatters, have brought out a SILK HAT suitable for day or evening wear. Shown here first by FRANK BYRNS' Hat Store.

TRAIN ACCOMMODATIONS GOOD. Those who are expecting to go from this city to White Hall to attend the district convention of the Knights of Pythias will find that very good train service is provided. The convention will consist of an afternoon session at 2 o'clock and a meeting at 8 o'clock in the evening. The C. & A. leaves this city at 10:20 a. m. and at 3:55 p. m. The Jacksonville men coming back can leave White Hall at 8:12 and arrive here at 9:40 or can leave there at 10:37 on the Burlington for Chapin, where they can take the Wabash, getting in Jacksonville at 1:48.

POWERS IMPORTED GLOVES for men \$1.50, \$2.25, in the new shades, are shown by FRANK BYRNS' Hat Store, where the new styles are shown first.

FUNERAL NOTICE. The funeral of Samuel Heaton will be held at 11 o'clock this morning from the Christian church at Lynnville, in charge of Rev. Joseph Camp.

Buy Herman's celebrated millinery, the best and cheapest on earth.

RETURN FROM THE SOUTH. Mr. and Mrs. Charles L. French returned Saturday from the south, where they have been for the past month. They spent the greater part of the time at Biloxi, Miss., which they found a very restful and quiet resort. Later they went to Pensacola, Fla., for a week and they returned very much refreshed by their southern stay.

Splendid assortment of children's, misses and ladies' coats at reasonable prices, at Herman's.

BIRTH RECORD. Born to Mr. and Mrs. J. E. Boland at Our Savior's hospital, a son, 11 1/2 pounds.

IN JUSTICE COURTS. Lee Wolke appeared before Squire W. T. Dyer Saturday and had a notice served upon Claud Haman, ordering him to kill a dog which, it is said, attacked Wolke as he was walking by the Haman residence on South Main street.

Premier neck wear, new and nifty, only fifty, at FRANK BYRNS' Hat Store.

MINISTERIAL MEETING. The Jacksonville Methodist Ministers will go Monday to Palmyra to attend the annual district ministerial meeting. All the local ministers will appear on the program.

Lovely creations in millinery; handsome designs, tasty goods, and fine work are peculiar to Mrs. Stallings' millinery; be ready for Easter.

A Service that Pleases

Help us to give you the quickest service possible by sending in your orders early. We were complimented Saturday more than once on both the quality and promptness of our service. We are giving special attention to promptness and the words of encouragement given us encourage us to still further efforts to take care of our customers' want quickly and without errors.

Each day we are adding to the completeness of the equipment of our store and we keep a watchful eye for anything we think will better or improve our store or stocks. Do not be content with merely looking at a few of the things we offer, but look the whole store over, see the qualities and GET THE PRICES.

Drug Department

We engaged Mr. R. A. Keuchler as prescriptionist in our Pharmacy and along with all else usually found in a completely stocked drug store we have a full line of the special Keuchler remedies. Anything from the pharmacy department can be delivered for you and we would especially like to have you give this part of our service a trial.

SLEEPY EYE FLOUR. A great many customers ordered last week for their first time. Every order for this flour means a satisfied customer. Let us deliver a sack to you this week. Our price, \$1.85 sack, 96 lbs; 95c sack, 24 1/2 lbs.

MACARONI. Everybody should eat more of this truly wholesome food. We certainly are doing our part to get you interested when we sell the very best domestic macaroni at ONLY 5 cents per pound in bulk.

SPRING CLEANING. For the next few weeks you will need, Brooms, Mops, Mop Sticks, Washboards, Clothes Lines, clothes Baskets, Tubs, Scrub Brushes, Dustless Mops, Dustless Mop Cloths, Furniture Polish, Feather Dusters, Sponges, Soaps, Soap Powders, Scouring Soaps, Ammonia, Sal Soda, etc., etc. We carry all these in stock.

BEECHNUT BACON—Beechnut Bacon is in a class by itself. If you have never tried this bacon there is something in store for you. We are actually selling it at 30 cents a pound. The price is marvellously low when you remember that the same bacon in jars has cost you from 53 1-3 to 69 1-3 cents.

THE CUP PROVES THE COFFEE—We sell ROBERTS' Perfect Blends to the best trade. The coffees cannot help but please. They have been selected for their quality in the cup. When you buy Roberts' coffee you get VALUE received—28, 33 1-3, 35, 37 1/2, 40, 45c.

BLUE RIBBON PANK PACK—Just look at these good and prices: 3 lb. tin tomatoes, 2 cans, 25c; 2 lb. tin corn, 10c per can; 3 lb. tin spinach, 15c per can; 3 lb. tin hominy, 3 for 25c.

MONARCH CONDENSED MILK—Monarch Condensed Milk is the very high of excellence. It is an unsweetened pure and high class milk and our sales are growing daily. Monarch Milk gives satisfaction to the user and the price is right.

A RICH SMOOTH SALAD DRESSING—Perhaps it will not be true in your home to night, but in others someone will say, "I'm sorry but we can't have salad to night for I forgot either to make or order any." Don't let such a thing happen again, but keep a bottle of Blue Ribbon Salad Dressing always on hand. Large bottles cost but 25 cents and the dressing you will find the most delightful you have ever used.

SPRING DRAWS NIGH

AS THE buds are swelling on the trees, soon to burst forth in foliage and spread thier effulgence o'e all the land, so is this store filled, as it were, to the bursting point with crisp new merchandise, to prepare you for the arrival of spring. Again we demonstrate that oft repeated phrase—that no where else in Jacksonville can you find such a choice collection of materials as here. Each season brings forth new ideas in both fabrics and the manner of designing, and each season we are the first to show them. In selecting dress material from our stock it is not a matter of "finding something you like" but of satisfying your individual preference from amongst a great host of acceptable styles. We await the pleasure of your call. Anything you want in the dry goods line is here, but we call your special attention to our Wash Goods, White Goods and Gingham.

Our White Goods line consists of Flaxons, Sherrettes, Voiles, Marquettess, Bengaline, Soisette, Poplin, Pongee, Percales, Linen Dunbar Suitings, Auto Cloth, Dress Linen, Paris Crepes and Plisse Crepe. In the Wash Goods you will find Holly Batiste, Printed Imperial Batiste, Sherrettes, Claremont Batiste, Poplins, Mercerized Plisse, Nearsilk Foulard, Embroidered Cliffr, Vaca Silk, Mulls, Silk Stripe Voiles, Silk Pongees and Chiffon Lisse truly a choice collection.

Worthy of Consideration

It means something to claim that you give a better value than can be found elsewhere for the same money. Yet we know that in our line of mens furnishings are values which can not be equalled elsewhere for the same money. We will be glad to cite you that we do what we claim. This season we are especially able to give you this advantage. In our line of shirts, made not only to sell, but to fit, are such values, also many exclusive patterns and materials. Our neckwear represents the most nobby design direct from the style shop. In fact our complete line is an extra value one. If you are particular that such advantages are yours, give us a trial.

Arts and Crafts in Basketry

We have just received our new spring line of Hawkeye Baskets. These baskets are made by expert craftsmen, some of whom have spent their entire lives in perfecting themselves in the art of basket weaving. The workmanship is not only the best that can be produced, but the materials are of the highest quality that can be had anywhere. In addition to the odd and quaint constructions one of the chief charms of our baskets lies in the artistic colorings. The soft, subdued craftsman colors, blend readily with almost any surroundings.

MANY GRADUATES AT HIGH SCHOOL

Fifty-one Students Will Be Given Diplomas at End of School Year—Pupils Taking Teacher's Preparatory course.

The students at the High school are now on the home stretch and the records show that 51 will graduate this year. In 1911 there were 48 graduates and in 1910, 72, the last being the largest class which ever left the institution. There are now 391 pupils in the High school, and while a large number will go out at the close of the year, both the Freshmen and Sophomore classes are large, and it is almost safe to say that the beginning of the school year, the fall, the first week will show an enrollment of 400.

As has been formerly announced in the Journal, Miss Minnie Hoffman will be Valedictorian, Miss Lois Hayden, salutatorian and Miss Sylvan Peak will have a place on the program. There were others in the school who had larger marks, but in order to win honors, the student must have spent four years in the school. Miss Ruth Brown has an average of over 93, but she has only been a student two years and the same applies to Clay Elliott, who has been in the school for two years. Ellis Spray and Ross Lemmon have each been a student one year.

The following are the grades as tabulated by Principal Stoops:

Ruth Brown	93.083
Minnie Hoffman	91.285
Clay Elliott	90.714
Lois Hayden	90.642
Ellis Spray	89.75
Sylvan Peak	89.714
Everett Long	89.535
Helen Shreve	89.068
Earl Hempel	88.655
Edward Bulhard	88.617
Ira Harshaw	88.379
Grace Hadden	88.172
Dorothy Cannon	87.846
Irene Merrill	87.814
Olive Smith	87.712
Cynthia Rieck	87.655
Katherine Hardin	87.655
Irene Straight	87.357
Bernice Martis	87.233
Ross Lemmon	87
Everett Weeks	86.655
Flossie Proctor	86.615
Harry Hadden	86.533
Zeta Wolter	86.111
Nina Fee	86.107

Aside from the three who received the highest honors, the class will choose three others speakers to appear on the commencement program. They will confine their choosing from above list. It will be noted that two girls received the same grade, Miss Cynthia Rieck and Miss Katherine Hardin.

According to the board of education the commencement exercises will take place the last Thursday in May, which will fall this year on Decoration day. This time can only be changed by a vote of the board of education.

After this year there will be no general course given. Supt. Furr has been giving the teachers' preparatory course since the first of February, to those students who have in mind to become teachers. All those taking this course are Seniors except Ruth Miller and Elsie Moxon, who are members of the Junior class. The following is the roll: Amelia Carlson, Rena DePrates, Nina Fee, Margaret Fernandes, Ira Harshaw, Nellie Hembrough, Elsie Moxon, Ruth Miller, Marjorie Oliver, Flossie Proctor, Winifred Priest, Cynthia, Reich, Irene Straight, Ethel Tapscott, Margaret Richards, Dorothy Cannon, Alice Gunn, Anna Herring.

This class has been studying "The Child" by Amy Eliza Tanner, and other work that the pupils will need is included in a series of lectures which Supt. Furr is giving. The following is a list of the graduates and their addresses:

AT PUBLIC LIBRARY

Mrs. F. J. Waddell has given the library a very interesting book on French styles in dress during the period from 1794 to 1894. The book contains a number of plates showing the styles each year and then extra plates showing neckwear, headwear and other accessories of dress. The illustrations, as well as the reading matter are very interesting and valuable. Godey's Ladies' Book contains plates very similar. It consists of four volumes on English costume covering the Middle Ages, Georgian period, Early English and Tudor and Stuart periods. Mrs. Arla's Costumes, Faucit's Historical and Theatrical is another book well illustrated, and like the others will be helpful in planning for May day fetes and other special occasions, where costumes are a feature. The library would be glad to have copies of Godey's latest book to add to its list of interesting books on styles and fashions.

KILLS SELF INSTANTLY DEATHS AND FUNERAL

Ray Pence, Son of Mr. and Mrs. Edward Pence of Hart's Prairie Meets Instant Death.

Ray Pence, the 12 year old son of Mr. and Mrs. Edward Pence of Hart's Prairie, shot and instantly killed himself while hunting near his home Thursday afternoon. He and Claude Starnier were hunting when Ray lost the buckle off of one of his overshoes and the two boys sat down on a log to repair the shoe. Claude cut off a string, intending to hand it to Ray to tie his overshoe on with, but when he started to hand it, the gun which Ray had been carrying and was leaning against the log slipped. Ray grabbed at it and the hammer struck the log and the gun went off. The entire contents went into the boy's head and fairly blew it to pieces, part of the brains being found on the log.

The accident comes as a great shock to the family and friends. Ray was a bright boy and highly thought of by his companions and all who knew him.

He is survived by his father and mother, three sisters, Eva Mae, Grace Lee and Virgil; two brothers, Chester and Russell Pence.

The funeral services will probably be held to day.

ARMY CHAPLAIN TAKES OWN LIFE

JOHN E. DALLMAN COMMITS SUICIDE NEAR MEREDOSIA.

Demented Man Sends Bullet of 38-Calibre Revolver Through His Brain—Body Found by Youthful Hunter—Coroner Skinner Holds Inquest.

The unknown man found dead in a field near Meredosia, as mentioned in Friday morning's Journal, proved to be John E. Dallman, a chaplain of the regular army, located at Indianapolis, Ind. The body was found by Neville Streuter, aged 13, son of Edward Streuter, who was hunting crows in his father's woods.

Mr. Streuter, William T. Hedenberg, John G. Berger and Rube Ham went to the woods and after inspecting the body, called up Coroner Skinner of Jacksonville, who ordered the body removed to the undertaking establishment in Meredosia.

The body was located about sixty rods from the Wabash railroad and about the same distance from the wagon road. The man had removed his coat, overcoat, necktie and collar. A 38-calibre Harrington & Richardson revolver was lying on his abdomen, his right hand covering the revolver and his left hand resting on his right hand. From the condition of the body death had taken place several days ago, probably a week ago last Tuesday. He had \$7.48 in his pocket.

Leaves Note to Brother.

There remains no doubt about Mr. Dallman's intention of taking his own life as a letter was found on his person addressed to his brother, Philip Dallman, of Warsaw, Ill. The letter was written on stationery from the Illinois hotel in Springfield, Ill., no date being affixed to the letter. It reads as follows:

Dear Brothers:
The shock I am going to cause you and poor Dottie would alone keep me from this act, if there remains any other possible thing for me to do. You may think all your unselfish efforts for me have been in vain. God knows I would stay if I could, but this impending horror is too great. While I can write, I want to thank you for your brotherly kindness and I beg you to forgive me if you can. My dearest love to poor sister, who must not let this break her life.

Affectionately,
John.
An identification card read: "I am J. E. Dallman. Philip Dallman, my brother, Warsaw, Ill. Editor of (Warsaw) Bulletin."

Coroner G. V. Skinner was notified and went to Meredosia, where he held the inquest Saturday morning with the following jury in charge: C. P. Hedrick, foreman; Fred A. Willis, W. A. Pond, Oscar Bricklingburg, Charles Wingham and Dr. H. H. Hamman, clerk. The verdict was that the

deceased came to his death by a gunshot wound in the right temple, fired from a 38-calibre revolver by his own hand with suicidal intent. Among those who testified at the inquest were W. T. Hedenberg, John G. Berger, Neville Streuter, Edward Streuter and Frank Risor.

Met Deceased a Week Ago.

Mr. Risor testified that he had met the deceased a week ago last Tuesday and the man asked the time of day. He remembered that he was a well dressed man and did not look like the ordinary tramp. Coroner Skinner on returning home met one of the men who worked on the Wabash section. He started that he remembered distinctly of hearing a revolver being discharged in the direction of the woods several days ago, but did not think much about it. There were four loaded shells and one empty shell in the revolver.

Had Been Missing Two Weeks.

Mr. Dallman had been missing from his post at the army headquarters in Indianapolis for two weeks and every effort had been made to find some trace of him. It is supposed that he had started out to visit his brother in Warsaw, and had wandered down in this section of the state, possibly coming this way from Springfield. He was a man of good character and stood in high favor with his superior officers. He served for two years as chaplain in the Philippine Islands. He was about 40 years of age and is survived by three brothers and one sister.

Mr. Dallman, to send the body to Warsaw for burial, which was completed Saturday afternoon.

JOHN DEERE IMPLEMENTS

The New Deere Sulky and Gang

Build upon practically the same lines—with that undoubted sign of superiority the John Deere Trade Mark.

Both sulky and gang fitted with a powerful footlift. This special footlift works so easy that anyone can raise or lower the plows with ease.

The gang has an auxiliary hand lever. You can walk and stretch your legs, if you like, and still control the plow perfectly. The lever is within easy reach of your hand and it has wonderful lifting power—five times the lifting leverage found on any other gang. A small boy easily lifts the plows weighted down by furrows while at a standstill.

Lightest of Draft

75% of all the friction on a plow bottom comes in front of a line drawn up and down across the mouldboard—a third the way back from the point. The peculiar shape of John Deere plow bottoms enables them to penetrate the soil easiest on that part of the bottom where the friction is heaviest.

Write or call on us. We want to tell you about the other exclusive patented improvements on the New Deere Sulky and Gang such as Adjustable seat—better steel—easy management—Dustproof wheel—extra good high wheels—easy running—also run in oil.

ASK FOR HIGHER WAGES.

A rumor was current Saturday that the union painters and paperhangers of the city were about to go on a strike. Inquiry reveals the fact that no such action has been taken, that the master painters at least have not been so notified by the men employed by them. The union recently submitted a new scale of wages to their master painters for their endorsement. It is understood that this was not signed and that instead the master painters have posted a scale indicating the prices they would pay.

Ollan.
A telegram received about 6 o'clock Saturday night conveyed the sad intelligence of the death of Mrs. J. I. Ollan, mother of J. I. Ollan and Mrs. Samuel Strauss of this city. Mr. Ollan received the news of the serious illness of his mother about 11 o'clock Friday night and he and his sister left early Saturday morning for St. Louis. Mrs. Ollan and Mr. Strauss have also gone to attend the funeral services. The Ollan family have always lived in Springfield excepting for the past two weeks when they moved to St. Louis and they were just waiting for their household goods to arrive. The family will have the sincere sympathy of the entire community in their bereavement. Mrs. Ollan is survived by her husband, three sons and five daughters.

Mrs. Charles Hale and son Vernon of Bluffs were visitors in the city yesterday.

The Mines Will Close

There may or may not be a miners' strike April 1st, but certain it is that the mines will shut down at that time for a month or two pending a wage agreement. All manufacturing plants are storing coal and the individual consumer must do the same. Protect yourself by storing enough coal to last until early summer.

STATE NEWS.

Shanton, Adkins, Lovington left an estate of \$400,000 and remarked that he was drawing his will so that the lawyers would get none of it. Relatives have contested it, however, the first trial resulted in a verdict for the will, but the case was reversed by the supreme court and half a dozen high priced lawyers on each side are piling up expenses at a great rate.

Monticello is in the midst of a hot fight over saloons. The brewery and saloon interests are making desperate campaign and both sides are bringing in the best speakers available.

Charles Shaeffer, residing near Anuboy has brought suit for \$10,000 against the Rock River assembly for damages sustained by the falling of one of the large doors of the auditorium whereby his right hand was badly mangled.

Ashland has had a one-act play for some days owing to the prevalence of scarlatina. This has been raised, the churches will resume services today and the schools will open tomorrow.

Lillie Davis and William Walker crossed the McKinley bridge to East St. Louis and were married. They fell in love some time ago, but Walker lost his eye sight and Miss Davis' friends opposed the match on that account, but the plucky girl led her lover across, secured the license and the knot was tied.

B. Winn of Whitehan was a soldier in the civil war. He then weighed only 115 pounds and carried dispatches at the battle of Mobile and dodged all the rebel bullets, causing the union generals to marvel. He is a large man now and recently helped celebrate the anniversary of the great engagement.

The Illinois Silo company intends to erect at Bloomington a \$100,000 plant for the manufacture of the A. P. Grout vitrified silo. H. C. Morrow is president and the concern will be affiliated with the Whitehall company.

Rev. James Edwards of Oakland City has been conducting a revival service in the Charleston Baptist church and so many have united it will necessitate a larger church edifice.

At a sale of forty horses and mules at Athens recently the aggregate was \$8,000. Two spans of horses brought \$1,000, one of mules \$505; one \$600 and others good figures. Courtwright Brothers had the sale.

After a courtship of 18 years Chester C. Fellows, a traveling man of Bloomington, and Miss Stacey Kraus of St. Louis were recently married. They decided to wait till Mr. Fellows could afford to leave the road.

Mrs. Minnie Pairox of Chandler, ville has brought suit for \$10,000 against Mrs. Holzgrade, landlady.

James Alvater, Havana, school-keeper for the death of her husband, who was found dead in a water tank, was indicted for the crime.

It is said the defendants are protected by a bond given by the Reich Brewing Co.

Mrs. Alexander Hamilton, residing near Tice, is a successful breeder of bronze turkeys and recently sold a man in the state of Washington two toms and two hens, receiving for the four \$750.

Rev. H. S. Merrill, of Senary county has been conducting a successful revival meeting at Kilbourne. He will shortly begin a pastorate at the Baptist church at Petersburg.

A very fruitful revival meeting in the Cumberland Presbyterian church at Petersburg has just closed. There were many additions to the church, a young man's society was formed and other good was accomplished.

SEEK TO SAVE WOMAN.

Effort Now Being Made to Keep Mrs. Cusumano From Electric Chair.

Boston, Mass., March 30.—A determined effort is being made to have the death sentence of Mrs. Lena Cusumano, convicted of murdering her husband and sentenced to be electrocuted in the state prison at Charlestown the first of June, commuted to life imprisonment. No attempt is being made as yet to secure a commutation of the sentence of Enrico Mascioli, who was convicted of the same crime as Mrs. Cusumano and sentenced to be electrocuted on the same date.

Mrs. Cusumano and Mascioli were convicted of the same crime and sentenced to be electrocuted on the same date.

Mrs. Cusumano and Mascioli were convicted of the murder of the woman's husband. The crime was committed in Hull in September, 1910.

A few weeks after the disappearance of Cusumano, his body was found on the shore and an autopsy disclosed that he was murdered. The trial took place in the historic town of Plymouth. A number of witnesses testified, the most important of whom was the 7-year-old daughter of Mrs. Cusumano, who identified the quilt in which Cusumano's body was wrapped, as one that was on her mother's bed. Other witnesses were Mrs. Cusumano's sisters, who testified against her.

Both defendants testified, denying the crime, but the evidence, such as the finding of a blood-stained ax, hole in the ground near the Cusumano home and a bundle of blood-stained clothing belonging to Mrs. Cusumano, was so strong that the jury found the pair guilty after short deliberation.

It is believed there is little doubt that the efforts to secure a commutation of the woman's sentence will succeed. It is the first time in the history of Massachusetts that a woman was sentenced to die in the electric chair, as it is the first time that a woman was condemned to death in this state. The cases were the first in Plymouth in 25 years that a person has been convicted of first degree murder.

Gilbert Masters, Ernest Strawn, John Snyder, George Colwell and Clifton Strawn are spending a few days at Mercedosa, hunting ducks on the Illinois river.

NEWS FORECAST FOR THE COMING WEEK.

Washington, D. C., March 30.—

The Wisconsin primary election Tuesday is expected to furnish the leading subject for political discussion of the week. Delegates to the national conventions of both parties will be elected in primaries, under the new Wisconsin law. The best impartial judges of the situation in the Badger state concede that LaFollette will carry the majority of the state delegation, with delegates reported in many cases to favor Roosevelt for second choice. The state is strongly progressive. The Taft men are active, but their hope apparently is not to get a majority of the delegation, but to prevent LaFollette from having a unanimous vote from the state.

On the Democratic side, Wisconsin seems to present about the same situation as Oregon and Nebraska, all being primary election states with three tickets in the field. Harmon is supposed to be stronger in Wisconsin than in the other two states and, backed by the solid conservative vote, it is thought possible the Ohio governor may win over Wilson and Clark, who will have to divide the "radical" vote between them.

Democratic primaries will be held in Alabama Monday for the selection of delegates to the Baltimore convention. The voters will express their preference for president in the primaries, but the delegates will be named later in the state convention. There is no doubt but Alabama will give a decided vote for Congressman Oscar D. Underwood, and the delegates will be positively instructed for the Southerner first, last and all the time. At the same primaries candidates for congress will be named, also minor state officers to be voted for next fall.

The tours of the presidential aspirants will be watched with interest. Col Roosevelt is to be heard in several cities in the middle west, while Senator LaFollette plans to invade New England. The reception of the Wisconsin senator in New England will afford an opportunity for an interesting comparison, as both Taft and Roosevelt recently visited that section.

Champ Clark has accepted an invitation to speak at a Democratic banquet in Louisville Saturday night, while William J. Bryan and other party leaders will be heard at a similar gathering in Des Moines.

Also of political interest will be the local option elections in Illinois and Michigan, the municipal election in Milwaukee, where the Socialists are fighting for a continuance of power; the aldermanic election in Chicago, and the Republican district conventions in Maine, Missouri, Iowa and several other states.

Some important decisions are expected to be handed down by the supreme court of the United States, when that body convenes Monday after a two week's recess.

Political New York is awaiting with much interest the trial of former City Chamberlain Charles H. Hyde, which is scheduled to begin Monday. Hyde was indicted for alleged bribery in connection with the Carnegie Trust company and the Joseph G. Robin banks. He will be the fourth of a coterie of prominent politicians, bankers and promoters to be tried on charges growing out of the failure of these institutions.

A large number of officers, directors and employees of the National Cash Register company, of Dayton, Ohio, have been ordered to appear in the United States court at Cincinnati Tuesday to plead to the indictments charging them with conspiracy to obstruct and monopolize the cash register business, in violation of the criminal provisions of the Sherman anti-trust law.

The launching of the torpedo-boat destroyer, Henley, which is to take place at the Fore River yards on Wednesday, will be of considerable importance in naval circles, because of the fact that this ship will be the first of the destroyers to be fitted with both turbine and reciprocating engines.

Other events of the week will include the celebration of the Jewish feast of the Passover, the annual convention of the American Cotton Manufacturers' association in Washington, the situation with regards to the coal strike, the annual conference for education in the south, at Nashville, and the observance of the semi-centennial anniversary of battle of Shiloh and the death of the Confederate leader, Albert Sidney Johnston.

USEFUL GOODS.

Made by Otto Hoffman, Worker in Cement and Dealer in Building Material and Coal. An interesting place is the plant of Otto Hoffman, 212 East Lafayette avenue, along the track of the Wabash railroad, near East street. The gentleman for years has made a specialty of cement work, walks, building blocks, wall curbs, chimneys, steps, well and cistern tops and the like and now he has added some beautiful articles in the way of ornamental flower vases and boxes, handsome articles and filling a long felt want. He does all kinds of concrete work and furnishing estimates on it.

He has recently added acid and soft coal to his business and will supply a good article at fair prices. His adv. appears in another column.

FUNERAL NOTICES.

The funeral services of Sylvester McCool will be conducted at 2:30 o'clock Monday from the family residence on Mathers street, in charge of Rev. W. L. Dorgan of the Baptist church. Interment will be made in Jacksonville cemetery.

The funeral services of Robert Orr, of near Concord will be conducted from the Baptist church at 1 o'clock this afternoon with interment in the Mt. Vernon cemetery, west of Concord.

Reo the Fifth

"One of the most fruitful sources of buyers of Reo the Fifth is the enthusiastic owner of this creation of R. E. Olds which he has well termed his topmost achievement in his twenty-five years' experience in building automobiles," says J. W. Skinner.

As a specimen of the thousands of similar letters which the company is constantly receiving I might cite that of Prof. E. H. Morse, the well known educator and business expert of Hartford, Conn., which came to hand yesterday. His letter in part reads as follows:

"Before I selected a car I, perhaps, went into a more exhaustive search and series of tests than do most men. I visited the New York, Boston and Hartford shows, and personally tried out what I considered the seven best makes ranging in price from One to Two Thousand Dollars. I put these all against the steep hill on Cedar Mountain, leading from the New Britain road to the New Haven turnpike. The Reo made it on second speed, and made it easily. No other car which I tried could do it on second; several could go over on the low speed, and a few could not make the hill at all."

POINTS FOR POULTRY RAISERS.

Breeding From Pullets.

William A. Lippincott of the Kan-
sas State Agricultural college writ-
ing for the agricultural page issued
by the American Newspaper Union
recently talked about "Breeding
From Pullets One Cause of Weak-
ness Among Western Farm Flocks,"
and the following are his thoughts:

"The farm flocks of the Central
west are losing their constitutional
vigor. Whether this is true of other
sections I cannot say. In this sec-
tion testimony to the fact is heard
daily. In substance it is something
like this: 'I'm not getting the eggs
I used to. I just believe I'll try some
other breed.' 'The eggs don't hatch
like they ought to and I change the
coosters every year, too.' 'My eggs
hatched pretty well, but I just could
not raise the chicks.' 'Seems like
my hens are not as large as they
used to be and they don't lay such
big eggs, either.'"

"Every complaint of this sort is
evidence of just one thing, and that
is, that the flock is losing its old time
strength and vitality which for con-
venience we call constitutional vigor.
There is a common practice among
farmers and fanciers which, as much
as any other, is responsible for this
state of affairs. It is breeding from
pullets."

"It is a great temptation to do
this. Everyone knows that the pullet
laying year is the most profitable
year as far as eggs are concerned.
That this is so in itself points to
lack of strength and staying power.
It is so, nevertheless, and it is the
natural thing in the world to
keep some of these pullet eggs and
then sell the pullet as soon as her
money-making days are over. This
is exactly where the trouble begins.
A pullet lays a smaller egg than
she will as a hen. The average
weight per hundred laid by White
Leghorn hens, for instance, was
found by the West Virginia Experi-
ment Station to be 12.96 lbs. A hun-
dred pullets eggs weighed on the
average 10.19 lbs. A small egg al-
ways gives a small chick when it
hatches. A small chick will grow in-
to a good-sized chicken but it doesn't
have the vigor to do it that a chick
of the same breed hatched from a
larger egg does. If you are going
to have good stock of any kind it is
a pretty safe proposition to have it
born right. If this is true of larger
animals it is increasingly true of
birds which mature in a single sea-
son."

"Because a pullet can lay a lot of
eggs that are perfect to the taste, it
does not necessarily follow that she
is fully developed enough to produce
eggs that will hatch perfect chicks.
Both experiment and experience have
shown that 'hatchability' of pullet
eggs and the 'livability' of the
chicks after they are hatched is less
than from the same individuals as
yearling hens and 2-year-olds."

"While we have no experimental
data on this exact point, data taken
from the West Virginia Experiment
Station shows practically the same
thing. Where about two thousand
eggs were incubated the following
results were obtained:

"Per cent eggs hatched—Hens, 76
per cent; pullets, 67.8 per cent.

"Average weight of 100 chicks at
hatching—Hens, 8.28 lbs.; pullets,
7.12 lbs.

"Average weight of 100 chicks at
4 weeks—Hens, 29.26 lbs.; pullets,
23.07 lbs.

"Per cent dying before four weeks
—Hens, 5 per cent; pullets, 14.5 per
cent."

"When one breeds from pullets he
does not give natural selection a
chance to help him out. We hear a
good deal one way and another about
the survival of the fittest. It works
in the hen yard as well as anywhere
else. A certain proportion of pullets
are going to stand up under the
strain of heavy laying better than
the rest. They lay no more eggs
during the spring and early summer.
It is along in July and August when
the fittest registers itself. Those that
live on the north side of the house that
the difference shows. They are still
active and vigorous and still laying
eggs clear up till they begin to moult.
Their weaker sisters begin to be a
bit peevish when the hot weather
comes on and some of them die. We
don't think much about it, partly be-
cause we are used to it and partly be-
cause we feel that we have already
secured a good profit on their win-
ter's laying. The thing that should
appeal to us is that there was a fun-
damental weakness present that caus-
ed them to break down. And further,
that we have a bunch of young stuff
coming on, a good percentage of
which have inherited the same fun-
damental weakness."

Poultry Notes.

Keeping too many fowls in a pen
with an insufficient amount of floor
space is a pitfall to be avoided.

Remember the five important's in
poultry success—grains, grit, ground
bone and rumption.

Many poultry journals are trying
to devise some scheme to catch the
swindling advertisers. Its about
time to draw the line on tained
money.

Feed breeding males separate
the hens, giving them morning and
evening meals alone. They are so
sagacious that they allow the hens to
eat first, and besides their wattle
cause them to eat much slower
than the females.

Most of the failures in trying to
operate poultry farms have been
brought about by trying to keep too
many fowls at first. Begin on a
small scale and work up to your
limit. You may be surprised to
find how few you can keep at a
profit, and you may find that you
were born to be a poultryman. Try-
ing it is the only way to get at the
truth.

Many of the disorders of fowls
may be traced directly to polluted
drinking water. The foundations
should be thoroughly cleaned every
day and fresh water given. Some
good disinfectant should be used in
washing the drinking fountain.

When hens are well fed and well
cared for they have confidence in

their keeper. They prove that faith
by a profitable egg yield. It is
therefore imperative that we get
down to these strict business prin-
ciples.

Open up an account with the
hens. Charge them with every item
of expense, but do not fail to give
them credit for every egg they lay
and every carcass they give up for
food. This naturally implies that
you must keep an egg record as
well as a ledger account. You
must know just what the hens are
doing and what they cost you.

Many flocks of hens have well-
filled bodies, but they are not well
fed. Corn is a valuable food, but
it is a mistake to feed the hens corn,
day after day, without any change.
If we want to do the right thing
by the hens, we shall have to study
the food problem a little.

There are money and satisfaction
in having a fair egg yield. We can
see a neat sum in hard cash in even
a small basket of eggs. The price
will not go the other way for a
while yet. Flocks want good eggs
and they are willing to pay for
them.

A little salt thrown in the drinking
water will aid in preventing loss
from pulling feathers. I have known
birds to be greatly benefited by this
simple treatment.

Grit must be hard and sharp to go
the work of properly grinding up
the food in the crop. Gravel, as a
general thing, is not rough enough,
and cracked oyster shell is too soft.

Never have more than one male
bird in the flock at the same time.
Better results will be obtained by
alternating males every week or so,
than to yard them all at the same
time.

If the hen will not pay her board
in eggs, she should be made to yield
a profit by being slaughtered and
her carcass sold. No poultryman
should keep drones; he can not af-
ford it.

The farm poultry flock too often
is composed of chickens, ducks,
geese, turkeys and pigeons, all liv-
ing together as one common family.
That is a mistake. Each kind
should have its own quarters.

Always make friends of your
fowls and they will not be frightened
when you go among them or when
for any reason you are obliged to
catch them. A severe fright does
much to decrease the profits.

A serious shed should be two-
thirds the size of the roosting pen.
It should be built open to the south,
the opening covered with one-inch
wire netting so that the hens may
be confined during stormy weather.

A certain man grew weary of being
tormented with his neighbor's
chickens. "I'll fix them," he said to
himself when he heard of a chicken
eating sow for sale. He purchased
the chicken eater, brought her home,
and set down to watch the fun. Her
fowls and the sow came together.
To his surprise the sow did not at-
tempt to harm the chickens. He was
puzzled and is still wondering why
she won't eat chickens for him when
he knew to a certainty she would
run down every chicken in sight for
her former owner. The porker
seems to be entirely cured of a bad
habit.

A change of location will
sometimes cure the cholera, but this
is the first instance I know of a
chicken-eating sow's tastes being
changed by changing owners.

ALASKA REPUBLICAN CONVENTION.

Washington, D. C. March 20.—The
farthest north Republican convention
meets today at Cordova, Alaska,
where the territorial convention as-
sembles to select delegates to the
national convention at Chicago. In
order to attend the Cordova gather-
ings some of the delegates are obli-
ged to travel distances of a thousand
miles or more by dog sleds over deep
snow. The Taft campaign managers
have received word from Governor
Clark indicating that the president
may count upon the vote of the
Alaska delegates in his contest for
renomination.

QUEEN CITY'S NEW BALL PARK.

Cincinnati, O., March 20.—Cincin-
nati baseball fans were given their
first opportunity to view the new
grounds today, when the home team
laid up for an exhibition game with
the New York Americans. The new
park takes rank among the finest
baseball plants in the country. It
cost in the neighborhood of a quar-
ter of a million dollars. The grand-
stands, pavilions and bleachers are
of steel and re-enforced concrete and
the entire seating capacity is about
25,000.

Dr. G. O. Wesner, Ed. Harnsey, John
Koyne, Samuel Story, C. Justus
Wright, Benjamin Cade, Henry Sey-
mour, Mr. and Mrs. J. K. Canning-
ham, were visitors in the city yes-
terday from Murrayville.

JEKSEY MAN'S STORY.

There is a rugged, robust, New
Jersey man, George W. Thompson,
a name, living in Mansquinn, who
has an interesting life-story to relate.
About two years ago he said (in
a recent letter) "my health broke
down and I felt fagged out all the
time, having very little strength and
being nervous, with poor appetite."

"I think Vinol is the best spring
medicine on the market today, for
since taking it I can say that I feel
like a new man. I have regained my
strength, eat well, sleep like a log."

Right now is the time for you, if
you are weak and run-down, can't eat
or sleep, to take Vinol, our delicious
food liver and iron remedy.

No matter whether you are a feeble
old person or young and sickly, if
you are not as strong and vigorous
as you ought to be, Vinol is for you
and it will build you up. Take it
on our guarantee of satisfaction and
if it disappoints you we will give
back your money. But if you need
new strength begin taking Vinol
now. Lee P. Alcott, druggist, Jack-
sonville, Ill.

THE CHINESE TRUNK MURDER

Strange Tales Will be Unfolded at
Trial to Begin in Portland.

Portland, Ore., March 20.—Strange
tales of Chinese feuds, intermingled
with the romance of love-making, are
expected to be unfolded in the circuit
court here next week, when Wong Si
Sam and Len Soon are placed on
trial on the charge of killing Seid
Bing and shipping his body in a
trunk to Seattle.

The alleged principals in the trag-
edy represented widely-scattered
classes of the local Chinese colony.
Seid Bing, a victim, was an Ameri-
canized Chinaman of good family,
with an inclination to be something
of a "sport." He was a nephew of
Seid Back, one of the best known
Chinese in Portland and reputed to
be a millionaire. In addition to be-
ing wealthy themselves the members
of the Seid family are Chinese Free
Masons and are allied with the pow-
erful Hop Sing tong.

Len Soon, one of the pair accused
of the murder, has occupied a place
of considerable prominence and in-
fluence among his fellow-countrymen.
He is president of the Hop Sing tong
in this city and is a former president
of the Hop Sing tong in San Fran-
cisco.

Wong Si Sam, who is to stand trial
with Len Soon for the alleged mur-
der, is a Chinese of low grade, one
of a numerous class who scrape out
their living in any manner that comes
to hand. When arrested Wong Si
Sam was employed as a cook on a
river steamer.

Little Oi Sen, "the most beautiful
Chinese woman on the coast," is al-
leged to have been the fourth of the
leading characters in the tragedy and
is counted upon by the prosecution
to lend assistance in untangling the
web romance, jealousy and deadly
warfare that reached its climax in
the slaying of young Seid Bing in
the woman's apartments. Oi Sen is
the alleged runaway wife of Ng Goul,
a respected merchant of Pendleton,
Ore. It is said that the bewitching
young woman of the almond eyes
found life too slow in the eastern
Oregon city. However this may be,
it is certain that she deserted her
husband and came to Portland, where
she soon became a conspicuous figure
in the gay life of the Chinese colony.

The authorities are believed to be
in possession of all the details of the
murder, as the result of a confession
said to have been made by Oi Sen
after her arrest. The story has not
been given out to the public. Whether
the killing resulted from a jeal-
ous quarrel over Seid Bing's atten-
tion to the attractive Oi Sen, or
whether the motive for the crime
lies in the deadly feud between the
rival tongs, with Oi Sen used merely
as a bait to lead to the truth to his
death, can only be conjectured.

The facts as known are that Seid
Bing was butchered in Oi Sen's apart-
ments on December 20 last and his
disemboweled body shipped to Seat-
tle, where it was found several days
later in an unclaimed trunk. It was
evident that there had been no haste
in placing the body in the trunk. It
had been cut into pieces by one ac-
customed to surgery or dressing
meat. Salt had been applied to hin-
der decay and check bleeding. The
body must have been placed in the
trunk soon after Seid was killed.
The victim had been dressed in the
height of American fashion, with a
soft brown hat, gray suit of good
quality and fashionable cut and a
light brown cravat. His underwear
was of silk and he wore silk socks.
In dismembering the body none of
the clothing had been removed ex-
cept the trousers. In a pocket of the
coat were found several letters writ-
ten to Seid by American women and
girls in different cities.

Oi Sen's beauty, which had prob-
ably led to the slaying of Seid Bing,
was likewise responsible for her cap-
ture after the crime. Immediately
after the killing the young woman
fled the city. Friends of the slain
man and his family among the local
Chinese furnished ample funds to be
employed in a search for the fugi-
tives. The beauty of Oi Sen made
her a marked woman and it was but
a question of a short time before she
was located and arrested at Billings,
Mont. She was returned to Portland
to be held as an accessory in the
murder. Upon her arrival here she
is said to have made a full confession
to the police. As a result of what
she told, Len Soon and Wong Si Sam
were immediately locked up and a
charge of having murdered Seid Bing
was made against them. Eminent
counsel has been engaged to defend
the accused and it is evident that a
hard fight will be made to prevent
their conviction.

REAL ESTATE SHOW POSTPONED.

New York, March 20.—The open-
ing of the real estate show, which
was originally scheduled for the
Grand Central Palace today, has been
deferred until the last week of April.
The postponement was decided upon
by the management to give the ex-
hibitors more time to prepare their
displays.

The most reliable and successful specialist in
diseases of MEN AND WOMEN has visited
neighboring towns since 1880, cures the cases he
undertakes and refuses a fee from the incur-
able. This is why he continues his visits year
after year, while other specialists have made a
few visits and cease to return. His hospital
experience and extensive practice have made
him so proficient that he can name and locate a
disease in a few minutes.

NERVOUS DEBILITY.

Are you nervous and despondent; weak and
debilitated; tired mornings; no ambition; life-
less; memory poor; easily fatigued; excitable
and irritable; eyes sunken, red and blurred;
pimples on face; dreams and night losses; res-
less, haggard looking; weak back; deposit in
urine and drains at stool; distrustful; want of
confidence; lack of energy and strength? This
Carson System will cure you.

Dr. Carson through years of experience has
perfected the most infallible method of curing
all diseases and weaknesses of men, youthful
follicles and all effects of abuses and excesses, im-
proper life and solitary habits which ruin both
mind and body unfitting for business, study,
society or marriage. A perfect restoration guar-
anteed under contract in writing based on the
evidence of the patient's own health. It costs no
more to employ an expert than to risk
your life with an inexperienced physician.

I ALSO CURE ALL CURABLE
CASES OF Catarrh, Eye, Ear, Nose,
Throat, Lungs, Liver, Kidney, Heart,
Stomach, Bowels, Bladder and Skin
Diseases. Treatment that has
never failed in thousands of cases
that have been pronounced beyond

The Sanitary Hair Dressing

No matter where she is, the girl with a nice head of hair is always an object of admiration and at the same time the envy and despair of her less fortunate sisters.

The intelligent use of a good hair-dressing makes all the difference. Hair that receives no attention but the daily combing and an occasional shampoo cannot be pretty. Dandruff forms on the scalp, the hair becomes dead, brittle, uneven and drops out. There is an absence of that life, luster and snap possessed by hair which is given proper care and intelligent applications of NEWBRO'S HERPICIDE.

**The KING
of BLOOD
PURIFIERS**

As the Lion is Monarch of the Forest, so S. S. S. is King of Blood Purifiers and Master over all Blood diseases. Pure, rich blood and a free circulation is the surest prevention against the diseases and disorders which are constantly attacking our physical systems. Healthy blood stimulates the excretory members and enables them to filter out of the system everything that is not necessary or beneficial to the growth and development of the body. Thus we are apt to remain healthy unless there is a weakening of the vital fluid or an impure infection of the circulation.

Impure blood takes various forms in its outward manifestation. A weak, watery circulation denotes anaemia with its attendant evils of pale, waxy complexions, malarial conditions, or perhaps some more definitely marked disorder is shown. Frequently the blood becomes infected with acid humors, and Eczema, Tetter, Acne, or some other skin affection makes its appearance, while an excess of uric acid in the circulation produces Rheumatism with its pains and aches. Old Sores and Ulcers are likewise dependent on bad blood, these places being kept open and in a state of irritation by the drainage of pollution which disordered blood constantly discharges into them.

Another common indication of weak, impure blood is the loss of appetite, tired, worn out feeling and a general run-down condition of the system. This is an ailment very prevalent in the Spring and most persons so afflicted realize the necessity of overcoming the trouble by the use of a tonic.

We recommend to all in need of a blood purifier or tonic, the use of S. S. S., a medicine which has proven itself the greatest of all blood purifiers. It goes down into the circulation and removes all impurities, humors and poisons and makes the blood pure and health-sustaining. It purifies and strengthens weak deteriorated blood, supplies it with the healthful properties it needs and lays the foundation for good health. As a tonic S. S. S. has no equal and those who are beginning to feel the need of such a medicine to fortify themselves against the unpleasant conditions which come with Spring and early Summer, should commence its use at once. S. S. S., the King of Blood Purifiers, is a genuine blood cleanser, made entirely from roots, herbs and barks; it does not contain a particle of mineral in any form. You could not do better than begin the use of S. S. S. if from any cause your blood is weak or impure. S. S. S. cures all troubles due to a deranged circulation, and you will find it the most satisfactory tonic you ever used. Write for booklet on the blood and my medical advice. No charge for either.

As "Ed" Howe Sees Life

If the truth hurts you, it is a sign that you have been playing with a lie. Your troubles are like your children; you must take care of them, and keep them out of other people's way.

After a man reaches seventy, he is so disgusted that he doesn't fear death much.

When a boy studies for the ministry, the idea is nearly always put into his head by his mother.

You know how easily people bother you? Well, that's the way people feel about you.

There is a certain pleasure in apologizing, when you are not apologizing for anything serious.

When a young woman gets married, every wife longs to have a "private talk" with her.

A thin woman ran to catch a car, and fell into a seat exhausted. "I feel," she panted, "like a fat woman."

Literature is always too liberal in the tasks it gives the people.

People are always a little suspicious of a man who does his own cooking and housekeeping.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause reaction, irritate and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity. We want you to try **Real Orderlies** on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associated organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associated or dependent chronic ailments, if taken with regularity of a reasonable

Uncle Sam Buys a Buick Motor

A model 28 Buick motor car was delivered to Colonel Spencer Crosby of the Department of War at Washington, to be used by the inspector of buildings and grounds on his daily trips.

The government invited all the leading manufacturers of cars priced from \$900 to \$2,000 to submit a car in competition to a committee of expert mechanical men. These cars were driven to the designated place and the drivers dismissed.

The examination was then made with no representative of any of the cars present. Motor for motor, shaft for shaft, bolt for bolt, the cars were compared, tested and appraised by the government experts. One by one the cars were eliminated until but one remained. It was the Buick.

Of the seventeen or eighteen cars submitted the Buick alone stood the rigid test of quality and construction, upon which the examination was based. This car was at once turned over to the government for immediate service.

INCUBATORS

We have them. Just received a large shipment of the famous Mandy Lee Incubators—the kind that hatches every fertile egg and takes less care to run it than anything on the market today. We have all sizes and suggest that you call early while stock is complete. We are always glad to demonstrate and show you.

Manure Spreaders

We must have space for spring goods and to get this space we are going to make an exceptionally low price on Manure Spreaders for the next fifteen days. The new Lawn Down Spreader is the Spreader without a doubt—so easy to load, steel frame and many other advantages which we will be glad to show you. You need the Spreader and now is the opportunity to get them at a bargain. Come in.

We still handle The World's Standard Cream Separator—Des-Local. Longest life, lightest running and most sanitary. If you haven't got one now is the time.

GOOD HEALTH

How To Keep It

How To Get It Back

In this column we will discuss Health and Disease and questions of general interest will be answered by responsible members of the regular medical profession. Those not proper for publication will be answered by mail if accompanied by addressed and stamped envelope, provided they do not relate to a disease from which the patient is then suffering. For such diagnosis and advice as to treatment consult your family physician.

HEALTH--HEADING

Consumption and "Washing at Home."

"Two months ago my husband died from consumption. I am poor and have to support several children by doing washing at home, which I have difficulty in getting because people fear that fumigation and cleaning after my husband's death were insufficient. During the latter months of his illness his sputum was expectorated into tissue napkins or toilet paper and burned. Are they justified in such a fear?"

"They are until it can be shown that sanitary conditions around the premises are satisfactory, and that members of your family that might now have tuberculosis are being properly cared for."

Among the poor where the struggle for existence is a strenuous one, tuberculosis is a serious proposition. In your case, the husband probably was alling for some time, the children and yourself were necessarily intimately associated with him. Means were limited and opportunities for managing the children and keeping all conditions sanitary, physically couldn't be carried out by you. The suggestion is made that your family physician examine you and the children to exclude existing tubercular infection and that if any doubt exists as to the former process of fumigation and cleaning, you have the health authorities re-test the fumigation after you have thoroughly scrubbed and cleaned house again.

Fumigation will not penetrate everything and tubercular infected dust contaminates almost everything about a room in the course of a long illness from this disease. The scrubbing and cleaning process after fumigation is very important and often times should be followed by a second fumigation to insure safety.

To go through the motions of fumigation and cleaning ineffectively is worse than not to do anything at all, as it often gives a false sense of security.

Clothing on Fire.

At any moment it may be your duty to help one whose clothing is on fire. Every person should learn what to do. Remember that flames invariably rise upward and for this reason have the person lie flat down

on the floor or ground. This will make less fuel for the flames and less surface of the body exposed. Often when the clothing gets afire people become confused and panic stricken and allow the patient to rush about and thus add draught to the flames. Do not allow yourself to become excited. Compel the person to lie down--if necessary throw him down and then quickly cover him with a coat, rug, tablecloth, blanket or anything with which you can smother the flames. You must take care not to get your own clothing on fire. Stand at the person's head, put your foot on the end of the blanket to hold it down and then throw it over the person from his head toward his feet. In this way the flames are swept away from the burning person's face and head as well as from the person of the rescuer. Everyone should practice this maneuver. To know what to do in such an emergency may save the life of some relative.

Preventive Surgery.

It may not be generally known to the public that there are a large number of surgical operations which would be more successful if the patient could have the benefit of operation earlier. This is because the knowledge which is necessary to perform a successful operation has progressed more rapidly than the knowledge necessary to make an early and accurate diagnosis. No surgical operation should be made before it is necessary and practically this means that almost every operation is made as a "last resort," but this does not mean that the operation should be made late when the chances of success are small. In many cases requiring surgery the operative treatment is the "last resort" as soon as the diagnosis is made for such cases cannot be cured at any time by other methods of treatment. The most important thing to the patient is an early correct diagnosis. The diagnosis (to know what the disease is) is the only basis of all proper treatment and many times an operation could have been avoided if the patient's disease had been correctly understood early. Remember that while a surgical operation should never be undertaken where other methods of treatment will as surely and as completely cure, on the

other hand surgical operation should never be undertaken as a "last resort" and late.

Blowing One's Nose.

How can a person hurt himself by forcibly blowing the nose? There are numerous detrimental effects caused by forcibly blowing the nose. The most common is probably "nose bleed," caused by rupture of one of the blood vessels of the nasal mucous membrane. The bleeding may be very pronounced, according to the size and position of the vessel ruptured. Often the hemorrhage is so violent that the patient becomes weak from the loss of blood and the aid of a doctor is necessary to control it. This point of rupture of the mucous membrane often leads to the formation of a crust and is a constant source of irritation to the patient until healing takes place. Perforation of the septum has very frequently followed from the constant picking of a crust, which had its origin from forcibly blowing the nose.

The greatest danger, however, from blowing the nose forcibly with both nostrils closed is the effect on our ears. We have leading from the back part of our nose to our ears two little tubes, one to each ear, the Eustachian tubes that keep the air pressure in the middle ear equalized so that the drum can vibrate and transmit the sound waves to our auditory nerves. Now when we blow our nose forcibly with both nostrils closed the air pressure in the nasal chambers is very much increased and the air is forced through these tubes into the ears. We have all experienced the "puffing out" of our ears when we blow our nose with both nostrils closed. If there should be any mucus or pus discharge in the posterior nasal passages due to a "cold in the head," adenoids around the Eustachian tube openings or inflammation of any of the sinuses leading into the nose this discharge is apt to be blown along with the air current into the ears. When the germ laden matter once gets into the middle ear cavity it is not easy for it to get out. Here it finds a very favorable pocket, in which to start trouble. Inflammation with suppuration often follows with all the serious consequences of acute discharging ears. We should then never blow our nose forcibly and should always have one side freely open so that the pressure inside the nose is not unduly increased.

ALEXANDER VISITORS.

Among those in the city Saturday from Alexander were Mrs. Thomas Cockin, Mr. and Mrs. Joseph Kuntle, Mrs. Alice Kuntle, Mr. and Mrs. J. B. Corington, Miss Mayne Corington, Mrs. Strawn, Mrs. George Hall, Miss Mabel Snyder, Robert and Ernest Visser, John Kuntle, Miss Frances Ridder, Miss Rose Luby, Mr. and Mrs. Wilbur Keenon, Miss Anna Ridder, Miss Ella Visser, Mr. and Mrs. A. M. Sinclair and Miss Amy Sinclair.

ILLINOIS COLLEGE NOTES.

At the recent meeting of the North Central Association of Colleges and Secondary Schools, Whipple academy was admitted to the list of accredited secondary schools. Whipple academy has for some time been on the accredited list of such institutions as Smith, Wellesley, Mount Holyoke, the University of Chicago and the University of Illinois.

The life of D. K. Pearsons by Rev. A. W. Williams contains several references to Illinois college. Dr. Pearsons contributed \$50,000 to the endowment of the college about ten years ago.

Mr. C. P. Robinson of Petersburg has been appointed superintendent of buildings and grounds at the college. Additional subscriptions for the work of the campus improvement committee have recently been made. The committee in charge of the alumni fund has made a donation of \$25 and several other individuals have made smaller subscriptions. Any person interested in this plan for beautifying the campus by the planting of shrubbery, should communicate with Mrs. T. J. Pinner, chairman of the campus improvement committee.

WOMAN'S COLLEGE NOTES.

Mr. and Mrs. F. C. Vickery of Dwight, Ill., have been visiting their daughter, Miss Beryl.

Miss Beryl Vickery of Onida has been a visitor at the college. Miss Amanda Ridder, head of the expression department, will go to Carrollton Saturday afternoon, the 30th, where she will read "The Servant in the House" at the M. E. church. A great many former pupils as well as graduates of the department of expression live in Carrollton, so that Miss Ridder's work will be much more appreciated on that account.

Miss Beryl Vickery gave her graduating recital in expression Friday afternoon at 4:15. This is the first one of the expression recitals to be given and was greatly enjoyed by those present. Miss Vickery's work on this occasion showed a high conception of the work which she read and a most excellent preparation in this line of endeavor. She read from the "Sign of the Cross."

The annual spring events are now crowding in with rapidity. The Phi Nu open meeting will be next Monday night in Music hall. A week from that night will be the Easter reception given by President and Mrs. Harker, so that with the regular recitals and other attractions which now come at this time of the year the open dates are quite scarce. The music recital given by the intermediate pupils Thursday afternoon and evening was a decided success. The advancement of the music

department this year has been most gratifying.

Miss Thompson, the librarian, is in receipt of a large, autographed photo of Mrs. Gene Stratton Porter, which was sent to Miss Thompson for the girls of the Woman's college. Mrs. Porter has taken quite an interest in the building up of the library and has shown her interest in a number of ways. The college is keenly appreciative of these courtesies as shown by her.

CONSERVATORY NOTES.

A students' recital, including members of the classes of Mrs. Bellard, Miss Oldfield, Miss Jerald and Mr. Kitch, was given Saturday afternoon, March 30, at 3 o'clock.

The new Steinway piano, recently purchased by Illinois college for the Conservatory, arrived Friday and was placed in recital hall.

At the declamatory contest given by pupils of Whipple academy in recital hall Friday evening, Miss Winifred Hubbell sang two songs with violin obligato, played by Miss Nathalia Jensen. Miss Oldfield accompanied, and two movements of the Schumann Trio, Fairy Tales, were played by Misses Carrie Dunlap and Rachel Jerald and Mr. Dean Cochran.

The Easter recess will last from Friday morning, April 5, till Tuesday morning, April 9. Miss Oldfield will spend the time in Vincennes, Ind. Miss Jerald will be at her home in Vandallia, and Mr. Menger will visit his parents in Xenia, Ohio.

Miss Alma Forsythe will play a violin solo at Westminster church on Sunday morning, March 31.

The Illinois College chorale will begin rehearsing on "Oxybreath" on Monday evening, April 1.

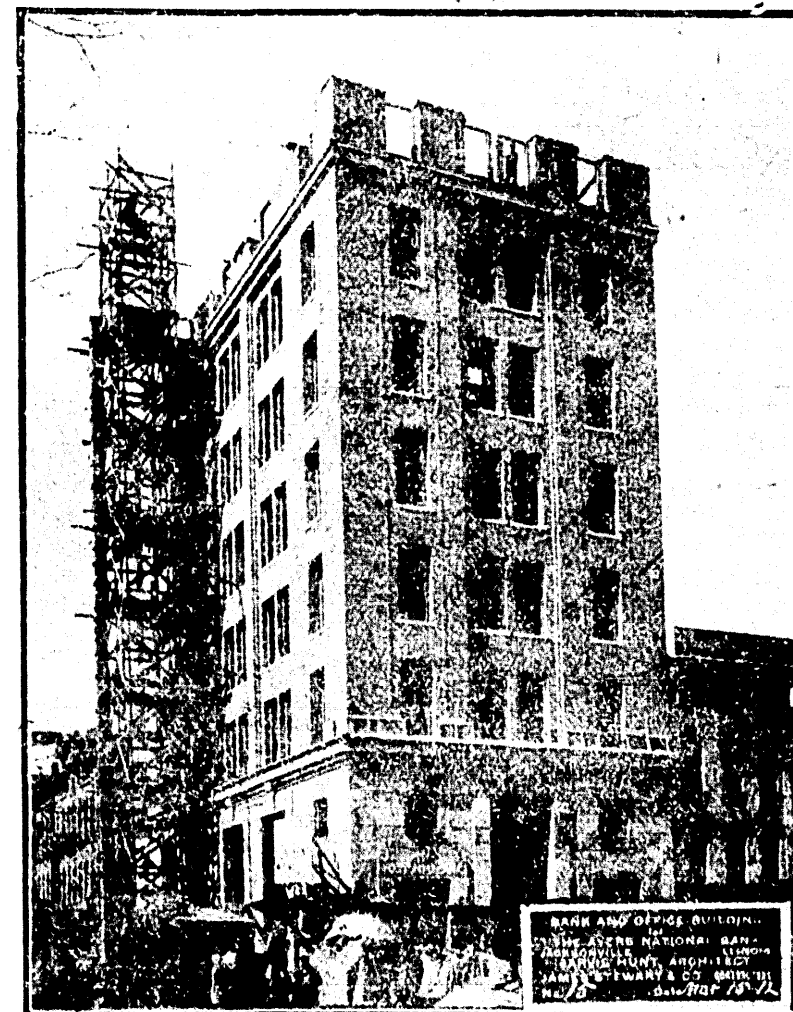

GAINES-GREENE TALKS OF SILOS

A Kansas City Drover's Journal dispatch recently said:

"Gaines Greene of Petersburg, Ill., a wealthy farmer, and an old buyer on this market, has been turning some on the price of feeds, and finds that corn is cheaper than hay. Hay sells at \$20 per ton, and corn around 6c a bushel, he stated. 'When we could feed 35c corn, and when hay was hardly worth hauling to town, we paid little attention to what it cost to feed cattle. But the situation is very different now. We have come to place where we will have to produce cheaper feed. The silo looms up as the most feasible proposition in the way of furnishing cheaper feed. Many are being built, and no doubt they will increase very fast. As a rule we never feed anything except corn and hay in fattening our cattle. In that respect the Illinois farmer is behind others out West where cottonseed meal and cake, and other feeds are used.'"

Harvey Hayes of Manchester, Mo., called on Jacksonville Saturday.

William M. Cleary For Representative

Prominent Farmer of Morgan County Seeks Nomination on Democratic Ticket--Stands For Progressive Democracy.

William M. Cleary, a prominent and prosperous farmer of Morgan county, is one of the strongest contestants for the place on the Democratic ticket for Representative from this district. Mr. Cleary is a type of the American farmer who does things. He stands for the best and most progressive principles of Democracy. Although not a politician, Mr. Cleary is a close student of affairs. He has resided during his entire life in Morgan county, owning a large farm about six miles east of Jacksonville.

Mr. Cleary believes in a better grain inspection at the Chicago and St. Louis markets; free seats for the public at the State Fair; better country roads, and all fundamental and Democratic principles; and strictly opposed to the Mobile bill. He believes that Morgan county should have a representative in this district, and he comes before the voters with a clean record and intent purpose to serve this district fairly and impartially. Mr. Cleary is 59 years of age and a man of family.

Grain Letter.
Chicago, Ill., March 30.—Wheat.—Uninteresting with trading practically all professional. News advice mainly bearish. Weather conditions are excellent for the new crop. Crop complaints are few. Manipulation is feared in May wheat. Traders generally devoting their attention to the more attractive markets of provisions, corn and oats, while congestion in May wheat will probably exert its influence on July and September. Little outside of trading market can be expected of trading market. Realizing sales for a time checked the upward tendency, but the market responded quickly to investment buying. A new high level was made for all deliveries. Weather conditions are unfavorable for farm work and planting delays expected. Kansas City and other southwestern markets report fancy prices for kiln dried corn which exerts considerable effect on this market. Country offerings to arrive are practically nothing. Local receipts are small. Market shows little tendency to record, but heavy sales should check the advance in the near future. The high price will undoubtedly stimulate movement to some extent, but bad roads and pressure of farm work will prevent any heavy movement until after planting. Successful bulls who have sold can be counted upon to buy heavily on all setbacks. There is little reason to anticipate any severe break and higher prices will probably rule.

HIGH WATER CAUSES WORRY

Illinois River Gauge Shows Water Is Getting Up to Record of 1908.

The stage of the Illinois river is giving some trouble to those who own property around Meredosia, Naples, Valley City and elsewhere near the river. Saturday the water was within a foot and three inches of being up to the very high mark of 1908 when a great acreage of land was covered with water. At that time water got over the Wabash tracks between Naples and Valley City and the road management had a lot of trouble in keeping the road bed from washing out. The depot at Naples was surrounded and lots of farm land was covered to a depth of six and eight feet. The Wabash was by no means the only railroad which had trouble, for all the roads in this locality had washouts and thousands of car loads of rip rap were purchased to stop the ravages of the flood.

There is probably no place in the state where the river stage varies as much as at Cairo. There where the Mississippi and the Ohio rivers flow together one can stand near the gauge when the water is low and look over a precipice sixty feet high. The water has been known to raise fifty feet there and a change of thirty-five feet is not uncommon.

C. W. Brown said yesterday that a change of sixteen feet at Meredosia was the greatest that he had known about. He said, too, that while the Illinois is high now it will probably continue to rise to some extent. Warm sunny weather like that of Saturday is sure to raise the water mark because all the snow up farther north is melting and running into the tributaries of the Illinois. Most of the increase of water now flowing into the Illinois is coming from the Kankakee and the Fox rivers.

THE FIGHT AGAINST THE FLY PEST.

Farmers' Institute Has Issued Some Valuable Suggestions for Getting Rid of Fly.

A policy of prevention of fly birth is better than a constant fight with and against myriads of flies sure to be present later in the season. The boards of flies of mid-summer are not only annoying, but are almost the best known medium for spreading disease. Prevent the mid-summer millions by destroying the early fly. Flies delight to find piles of rubbish, refuse and manure for these are the places and this is the sort of material in which they lay their eggs. All material of this sort should be cleaned up before the first flies arrive and should be kept clean all summer. If any refuse, garbage or manure accumulates about the house out-buildings or barns it is in this that the eggs are laid and the maggots hatch, and on this they feed. The accumulation of a few days, helps to breed flies, and if it is not cleaned up for three weeks a whole brood will have time to hatch, pupae and develop into adult flies. Prevent the formation of the usual breeding places and much more will be accomplished than by a campaign of "swatting" later.

To completely eradicate the fly pest a concerted campaign against this filthy insect must be begun at once. Four simple rules will help in this work.

1. Remove, destroy, clean and disinfect all garbage, manure, heaps, rubbish, etc. Remember it is hatched: this is where he feeds on animal and human faces and where he comes from when he goes into our houses, scattering filth and germs of typhoid or other diseases on our food or whatever he lights upon or walks across.

2. Use covered galvanized iron garbage cans and keep them closed as well as disinfected with crude carbolic acid or chloride of lime.

3. Screen the house, both doors and windows. Keep the flies from gaining an entrance.

4. Catch any stragglers that may accidentally get into the house by the use of traps or sticky flypaper.

Such a united campaign, rigidly carried out, would do much toward eradicating the fly in Illinois and with the fly some of our worst diseases.

TOP OF THE WORLD TUESDAY.

When the delightful musical extravaganza, "The Toy of the World," with Bailey and Austin and sixty-eight others, comes to the Grand, April 2, the occasion will well afford a memorable holiday for the youngsters. It is very doubtful if any attraction now entering in this country appeals so strongly to the children. It is a furious feast of fun—hilarious, fast, fun—but without clean fun. There is not a single line movement or situation which would be calculated to draw "gallery laughs" at the expense of the feelings of those occupying auditorium seats with their wives, sisters, sweethearts or children. It is a gigantic scenic production.

SMALL MADE ADDRESS TO VOTERS

Candidate From Kankakee With Supporters Visited Jacksonville Saturday — Lorimer Detained in Washington.

At the court house Saturday morning Len Small of Kankakee, a candidate for the Republican nomination for the governorship, made an address in behalf of his candidacy. Frank Atwood of Chicago and Cicero J. Lindley of Greenville also made addresses in advocacy of Mr. Small.

Senator Lorimer, who was announced to come, was not here, and Mr. Lindley stated that the senator fully intended to be present, but had remained in Washington to vote on the pension law which has been occupying the attention of the senate.

Andrew Russell presided and introduced the several speakers in a brief way. Mr. Small spoke in a very simple way without any attempt at oratory and told the principles for which he stands in the campaign he is waging. He is unalterably opposed to the initiative, referendum and recall and to abuses under the present primary law. Mr. Small believes that the present multiplicity of laws is a distinct disadvantage to the people as a whole. He accused Governor Deneen of extravagance in the management of state affairs and stated that the appropriations for the past two years were over \$29,000,000, while during the first two years of the Deneen administration the figures were \$15,300,000. He said further that the appropriations had increased more during the Deneen administration than had been true during all the time previous from the time of the adoption of the constitution. Mr. Small said he favored economy in the management of state affairs and also the greatest humanity for the care of the wards of the state. Further he said:

"I believe in our constitution, in representative government by the people, and in the principles of the Republican party as declared in the platforms of our national conventions from the time of Abraham Lincoln.

"Believing in representative government, I favor state and national conventions in which men may meet, discuss and declare for principles as well as for candidates. I believe in honesty in politics as well as in business."

"If I am elected governor I shall do all in my power to conduct a business-like, economical, humane, efficient administration in the interests of the people, and shall try to harmonize, unite and strengthen the Republican party."

Mr. Atwood said he was glad to be present and speak a good word in behalf of Mr. Small's candidacy. He said the campaign was the most important since the days of the war. He quoted from a speech made by a well known man at Youngstown, Ohio, where the speaker said that the "wrecking crew had been on the job long enough and it was time to send out the construction gang." This he thought to be true of conditions here in Illinois today. The Republican party in the past, he said stood for constructive policies and that should be its position now. Then he told something about Mr. Small's life. Mr. Small was born on a farm and when 21 years of age had sixteen acres of land. Now he has six hundred acres and is known far and wide as a breeder of fine stock. He has been connected with horticultural, agricultural and dairy interests for years and thoroughly understands the needs of the farmers. The speaker then told of Mr. Small having held the offices of supervisor, circuit clerk, state treasurer and now being an assistant treasurer of the United States by appointment of President Taft. He said that Mr. Small is a man who prizes the principles and friendships and that he could be trusted with office.

Cicero J. Lindley in half an hour's speech, denounced the initiative, referendum and recall in unmeasured terms, unpardonable and undemocratic and said it was socialism. He said that he had no quarrel with socialism, but that their principles had nothing to do with the Republican party. He said that these things made the affairs of government too much a matter of impulse and said that in the days following the war for a time at least, Abraham Lincoln, the greatest president the country has ever had, would have been recalled had it been possible to do so. He then assailed Deneen and Jones as reformers who simply sought to accomplish their own ends under the guise of reform. He pointed out weaknesses in the Oregon plan and showed a ballot used in a South Dakota election a year ago which was seven feet long and contained 24,000 words. He claimed that such a ballot resulted from alleged reform movements could do nothing but confuse a lot of voters.

NEW PENSION LAW.

J. H. Williamson calls attention to the provisions of the new pension law which was only recently passed by senate. It is time, no doubt, that few people are familiar with the stipulations of this new law. According to age and length of service the pension allowed is as follows: 62 years old, nine months service service \$14, two year service \$15, three year service, \$16. For veterans 66 years old, the pension varying in the same according to service, is \$16, \$16.50, \$17, and \$18 for those seventy years old. It is \$18, \$20, \$22 and \$24 for those seventy five years old it is \$20, \$24, \$27 and \$30.

HELD CAKE MARKET.

The cake market conducted Saturday by the ladies of the Christian church at Rayhill's China Store was a marked success and a handsome sum was realized. The ladies of the church divided into eight circles, each of which have made pledges toward the church fund. The market Saturday was conducted by Miss Elizabeth Ratachak's circle and the ladies in charge were Miss Ratachak, Mrs. Arthur Hayden and Mrs. J. A. Crum.

ENTERS DENIAL TO STORY.

The story has gained some circulation that former Governor Yates and Governor Deneen are working a sort of a brace game in the present contest for the governorship. This statement has brought forth a vigorous denial from Mr. Yates' headquarters. It can be stated as an absolute fact that Mr. Yates is in this fight to stay and will not withdraw in favor of anyone. Mr. Yates says further that he is financing his own campaign except for the support of a few friends who have given \$100 apiece toward the expenses.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people differs from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been blantly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Letters recently received from Mrs. Blanche Tilton, Chama, Ill., and J. Brookstaver, Benton, Ill., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup of Pepsin is held. It is mild, gentle, non-gripping, not violent, like salts or cathartics. It cures gradually and pleasantly so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific.
